Why Do Business With Us?

Durable & Flexible

Our preform thermoplastic can be easily distinguished by its flexibility, especially in colder temperatures. We have vigorously tested our product to ensure it will not break on the job site, making it easy for anyone to lay down.

Vibrant & Lasting Colors

Our product is formulated with virtually non-marring properties to always allow you to be confident that your marking will be white from day 1. After all, white lines should remain white.

Ultimate Customer Experience

We are fast, flexible, and fearless when meeting the demands of our customers. Every package is triple inspected to ensure accuracy and clean packaging to avoid flyaway debris on the job site.

Lines & Rolls

Preform offers lines and rolls in various shapes and sizes. PREFORM is perfect for line markings, crosswalks, stop bars, parking lots, or other delineation projects.

We stock a variety of widths from 4" to 24" and can create custom sizes upon request. PREFORM lines and rolls have factory-applied retroreflective glass beads and friction particles ensuring you get the brightest, safest product.

Arrows

Preform manufactures directional arrows of all shapes, sizes, and specifications. PREFORM arrows have clean edge lines and can be made with a single color or with a contrasting edge to give the marking more emphasis on concrete applications.

PREFORM arrows come with factory-applied retroreflective glass beads and friction particles ensuring you get the brightest, safest product. In addition, we offer reversible arrows that require bead broadcast during installation in case left or right quantities are undetermined. PREFORM arrows help ensure drivers understand the direction of traffic and make your streets and parking lots safer.

Symbols

Preform specializes in all MUTCD standards and specifications as well as globally known symbols for traffic management. PREFORM symbols are created for ease of installation with numbers inscribed into the thermoplastic and clear assembly instructions.

Whether it be handicap logos, bike lane markings, or stop sign emblems, we have you covered. PREFORM symbols have factory-applied retroreflective glass beads and high friction particles ensuring your symbols stand out and are easy to spot.

Letters & Numbers

PREFORM letters and numbers have factory-applied retroreflective glass beads and friction particles to make your messages stand out during the day and most importantly at night.

Our letters and numbers can be made in a variety of sizes & colors to abide by MUTCD, DOT, as well as custom specifications. Numbers are excellent ways to allocating parking stalls at your place of business or warehouse to communicate with motorized and non-motorized traffic.

RideSafe

RideSafe demarcation system combines a single component acrylic binder with premium pigments and colored aggregate for a durable, long-lasting, and brilliant finish to any demarcation project.

Visually stunning and colorfast RideSafe not only looks good but also offers additional traction for cyclists and vehicles. The colored aggregate ensures the marking remains brilliant even when exposed to traffic.

RideSafe is available in a variety of colors and can be used to economically delineate bike lanes, bus lanes, toll roads, or any other area where there are conflict locations between alternate modes of transportation.

Advantages:

- Fast application. Single component binder ensures no messy mixing or confusing multiple component ratios
- Durable
- Additional traction
- Colorfast
- Available in MUTCD specified colors for bike and bus lanes or can be color-matched to a specified color

Custom Designs

We make custom logos to highlight your brand and draw customers to your place of business. Don't go unnoticed by drivers and passerby's, a PREFORM thermoplastic logo will help your storefront stand out. Available in a variety of colors, our team is eager to distinguish you from others. Factory-applied retroreflective glass beads and friction particles are included to ensure your logo stays bright and is safe in all weather conditions.
